Remember the meeting on Thursday afternoon of the stockholders of Walhalla College at the Court House.

Ask your druggist what he knows about the merit of Shriner's Indian Vermifuge, the popular remedy.

The past few weeks have been well adapted to the cotton plant and it has grown wonderfully. The prospect now looks promis' ..

Blackberries are an abundant crop. !!lums, June apples and early peaches ar being enjoyed by those who in the past have had the wisdom to plant good orchards.

A union prayer meeting of the Young Mon's Christian Association will be held at the Presbyterian Church on Sabbath afternoon next, at 5 P. M. All are invited.

Col. G. J. Foreacre, General Manager of the Atlanta and Charlotte Air Line Railway, was in town on Wednesday on business connected with the road. Corn is looking well. It is generally clean

and in fine growing condition, though rain is now wanted. With good seasons the crop will be large. . The wheat crop is being threshed and is

yielding above the expectations of every one. The crop is certainly the best that has been harvested in twenty years. The crops about Walhalla are needing rain

badly. Upland corn is wilted and will injure in a few days unless we get a season. Gardens are burning up. The weather last week was excessively

warm and dry, the nights being such as rarely are felt in this climate. For several days the nights have been very pleasant and the mornings cool. . Until further notice the mails will be opened

by 71 P. M., and the Post Office will be closed at 73 P. M. All mail matter deposited in the night letter box before 5 A M. will be forwarded by the morning mail. Patches of millet about Walhalla are begins

ning to head. A number of persons have sowed their oat stubble in millet and generally there is a disposition on the part of the people to turn everything to profitable ac-

More peas, from what we hear, have been planted in the County than for years past. We are glad to note this, for it is an evidence that out people are looking to making their ment and bread at home.

Mrs. Bettie Wardlaw, wife of Mr. J. C. Wardlaw, formerly of Walhalla, died in Newberry recently. Mrs. Wardlaw was greatly esteemed and ad nired for her many virtues and excellences of character.

The change of schedule on the Greenville and Columbia and the Blue Ridge Railroads, which went into effect on Monday, the 9th instant, is much better than the old one. The train now reaches Walhalla at 6.25 P. M., instead of at 8.25 P. M .- two hours earlier. It leaves at 6 25 A. M.

Another excursion train will leave Charleston for Walhalla on the 16th instant. Excursionists can also go to Greenville, Spartanburg, Asheville and other places in the up country. But we reasonably suppose the larger number will come to Walhalla. They will be well received

Our German fellow-eitizen, Capt. F. Wiebens, will accept our thanks for a basket full W. R. Taylor, 1st U.; Miss Annie Hubbard, of plums. Not knowing the name of the plum, we will call them the "Wieben variety." They were large and juicy, appearing to be a cross between the common plum and the dam-

Mr. E. B. Calhoun and family, of Newberry. and Mrs. Norwood, Miss Norwood, Miss Bessie Norwood and Miss Parker, of Abbeville, passed through Walhalla on Wednesday, on their way to Cashier's Valley to spend the summer.

Several of our Columbia citizens are spending the summer months with us, among them we are pleased to notice Mrs. B. F. Orchard and family, and W. J. Duffie and wife. We hope they, together with all others who are sojourning in our mountain town for health and recreation, will have a pleasant time.

There will be communion services in the Presbyterian Church next Sabbath. Preach ing will begin in the Church on Wednesday night before and will be continued from day to day until Sunday. The Pastor will be assisted by Rev. D. E. Frierson, of Anderson, Who will preach on Thursday and Friday.

We consider it the finest specimen we have ever seen. It is of the Bowden variety. Mr. C sowed five bushels on upland, manured with cotton seed, but has not yet threshed it.

We like to see a man refuse to take his local paper, and all the time sponge on his neighbor for the reading of it. We like to hear a man complain when we ask him to subscribe for his home paper that he takes more than he reads now, and then go around and borrow his neighbor's, or loaf about him until he gots the news from it. We like to see a man run down his home paper as not alive and happy an pure and healthful thoughts editor for a favor in the editorial line. We like to see a merchant refuse to allvertise in a home paper and then try to get a share of room than in the grog shop or gambling den. trade which the papers bring to town. But If we could make them Christians from childman, who cannot pay for his local paper, always | not say it is right, but we do not believe it is manage to be around in time to read the paper at the expense of a friend not worth the paper at the expense of a friend not worth the tenth part of what he himself is. Another Y. M. C. A. was organized at Westminstor on last Sunday afternoon, with eighteen members. The following were the Moors elected, to serve for the year: President-A. Zimmerman; Vice President-R. E. Smith; Secretary-T. A. Y. Janes; Treasurer -S. H. Owen. This makes three Associations now in the county-one at Walhalla, one at Rock Springs and one at Westminster.

We publish in this issue the quarterly report of the Walhalla Bank. With this report ends the first two years of the existence of the bank. The report shows the bank has been well managed. The gross profits of the bank from its organization are \$9,000, the net profits being \$6,500. The bank during its existence has declared dividends to the amount of \$5,000, and has retained a surplus fund of \$1,500. As yet the bank has sustained no loss, and its business has regularly increased from its organization.

The excitement about mad dogs has subsided. We doubt if a genuine case of rabies has ever existed in this County from the days of Columbus to the present time. We have never seen a man who would claim that heever saw a mad dog. These hot days dogs will pank and snap flies, and these actions are construed into symptoms of rabies. A few flies, mosquitoes, flees, and red bugs these hot days will make any person feel like getting

Dr. Gunn, of New York, in a recent lecture olaims that hydrephobia is not a disease peculiar to summer. Of 2,500 cases reported in Europe and the United States, 704 were in the spring, 621 in the summer, 608 in autumn, and 507 in winter. He denies that frothing at the mouth is an indication of the disease, but that when the rabid stage sets in, the saliva disappears. Fits produce frothing at the mouth. The lecturer reported a search in his native town for a mad dog in which nearly the entire population joined, when the cause of the trouble was that he and a drug clerk had thrown turpentine under the dogs

R. E. Norman, survivor of A. E. Norman & Son, still offers great inducements in the way of fancy goods, toys, cigars and tobacco. toilet soaps, perfumery, &c., plain and French candies, &c. The supply of drugs and chemicals are kept up to the reputation of this old and popular drug store, and proscriptions are compounded with care and despatch. Dr. Norman keeps only the best quality of fancy articles and all his drugs and medicines are warranted genuine and of the best quality. A specialty during this hot weather is the supply of iced soda water always to be had here and nowhere else in Walhalle. Call and see his stock and cool the inner man from the sparkling fount.

Me have received the July number of the Southern Farmer and Stock Journal, and are pleased to see the marked improvement in the arrangements of its topics, and information given; making it one of the most reliable means of knowledge to the Northern farmer of the vast resources of the South; while the Southern farmer will find it the best periodical on the varied agricultural subjects, published in the Southern States. Monthly at the extremely low price of 75 cents per annum. Address II. C. Billings and Sons, Madison, Ga.

A new temperance organization has been started in this county by the Rev. Fletcher Smith. The order is known by the name of Counselors of Temperance. And it is the purpose of the originator that whenever three Counsels are organized to form a Grand Counsel. The first Counsel was organized at Fairview School House, on the 22d June, with the following officers: Sloan Y. Stribling, V. C.; W. A. Barron, S.; W. T. Hubbard, T.; Q. L. Smith, C.; Miss Lina Taylor, A.; S. II. Brooks, R; S. C. Biggerstaff, E.; Miss Lou McMahan, 1st L.; Miss Sue Harkey, 2d L; 2d U.; Samuel Hubbard, Sentinel; Frank Taylor, W.; Lewis Burkett, M.

As the lecture of Rev. Mr. Sanders, delivered Sunday night, relates to a subject of general interest, and as it has created a good deal of comment, and, in some cases, harsh criticism, we publish a report of the leading views as gathered during its delivery. We have no comment to make. People will generally form their opinions on such subjects according to their training and peculiar tastes. If they love dancing they are very apt to argue that it is a harmless amusement. We will do Mr. Sanders the justice to say that we believe his views are purely theoretical, and that in practical life they will hardly be found to be realized in many respects. The association of mile and female is natural. It is ordained of God. Male and female made he them. The woman is a helpmate to man and she is dependent on him for protection. Society forbids that she should travel or do many harmless acts without the escort of the male. There is a natural tendency towards each other, pure, harmless and chaste as the virgin snow. This being true, how natural to account for the charm of dancing. It arises from the combination of the several propositions laid down as questions in his discourse and which are denied standing separately. The natural pleasure of the company of male and female, with the music, the exercise, &c., make the charm. Men will dance together, though they prefer to dance with ladies. We have often danced with men and have often seen a regular stag dance for hours. In fact, a good tune on the fiddle, a thousand miles from a woman, will arouse a desire to dance. We doubt if Bill Spencer was here in his prime and should strike up "Crilly Crankey," or some other lively air, but he could stir up our reverened divine to a lively pat of the foot and a regular shake down in his heart. Dancing may be abused, but it with us utterly failed to produce the effects attributed to daheing. There is during dancing a flow of soul and . enjoyment which drives away impure thoughts. This is our judgment. It is the dreaming melancholy man or woman who is likely to go to the bad. Keep the spirits worth taking, and overy now and then beg the will fill the mind. They may not always be Christian thoughts, but as the young will sow their wild oats they had better do so in the ball above all things, we like to see a rich, miserly bood then we might condemn dancing. We do

The colossal bronze statute of Victory which stands in the Park, at Lowell, before the tomb of the first soldiers that fell in the revolution, is a lasting and benullful tribute of art. It is one of the first objects sought by strangers visiting our sister city, which indeed many visit purposely to see this elegant object of high art. It was obtained from the King of Bavaria by Dr. J. O. Ayer, to whom his Majesty was especially gracious in acknowledgement of what his remedies are reputed to have done for the suffering sick. It was donated by the Doctor to the city of Lowell as a permanent and speaking emblem of the victories both of science and arms.

SOMETHING NEW UNDER THE SUN. -- A new era is dawning upon the life of woman. Hitherto she has been called upon to suffer the ills of mankind and her own besides. The frequent and distressing irregularities peculiar to her sex have been to her the "direful spring of woes unnumbered." In the mansion of the rich and in the hovel of poverty alike woman has been the constant yet patient victim of a thousand ills unknown to man-and these without a remedy. "Oh Lord, how long!" in the agony of her soul, hath she cried. She will suffer no more, for Dr. J. Bradfield's Female Regulator-Woman's Best Friend-is for sale by all respectable Druggists throughout the land at \$1.50

NEAR MARIETTA, GA., March 21, 1870. MESSRS. WM. ROOT & SONS-About one year ago I bought a bottle of BRADFIELD'S FEMALE REQULATOR from you for one of my daughters who had been suffering with suppressed menses for some time. I have had several physicians attending; but met with no success until I was persuaded to buy a bottle of the Regulator, and it is the very thing for which it is recommended. She is now in perfect health. I hope all suffering females will at least try one bottle and have health again. Very respectfully,

MURDER WILL OUT.—A few years ago "August Flower" was discovered to be a certain cure for dyspepsia and liver complaint, a few thin dyspeptics made known to their friends how easily and quickly they had been dured by its use. The great merits of GREEN'S AUGUST FLOWER became heralded through the country by one sufferer to snother, until, without advertising, its sale has become until, without advertising, its sale has become immense. Druggists in every town in the United States are selling it. No person suffering with sour stomach, sick headache, costiveness, palpitation of the heart, indigestion, low spirits, etc., can take three doses without relief. Go to your druggist, Dr. R. E. Norman, and get a bottle for 75 cents and try it. Sample bottles 10 cents.

Weakness, Sterility, Leucorrheea, arising from internal ulceration, and Uterine disease, Syphilitic and Mercurial diseases, Dropsy, Dyspepsia, Emaciation, General Debility, and for Purifying the This Sarsaparilla is a combination of

vegetable alteratives - Stillingia, Mandrake, Yellow Dock - with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure.

Its ingredients are so skilfully com-

bined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease.

The reputation it enjoys is derived from its cures, and the confidence which from its cures, and the confidence which prominent physicians all over the country repose in it, prove their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing avidence of the superiorité of this Services.

evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superi-ority to any other medicine known, that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.

FOUTZ'S CELEBRATED Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invig-rate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER R. GLANDERS, YELLOW WATER, HEAVES, COUGHIS, DIS.

TEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite-gives as mooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

. To keepers of Cows this prepara tion is invaluable. It is a sure pre

tion is invaluable. It is a sure pre-ventive against Rinderpost, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it, gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and oure for the Hog Cholera.
